The Author was M. Mazzei, who was assisted in the work by the celebrated Condorcet. The second and third volumes are occupied by criticisms on the Works of Mably and Raynal. Mazzei was an Italian by birth who migrated to America before the Revolution and established himself in Virginia, near Montecello, where he planted a vineyard. He was intimate with Mr. Jefferson, through whose influence he was sent on a mission to the Grand Duke of Tuscany—*Rich.*

This is a Work of great importance for history of the Revolution; it is a store house of new materials, if it does not bring forth many positively new results, it discloses new details and furnishes new illustrations of points before known only in the general. No library of American history can dispense with it; no American Statesman can creditably remain ignorant of its contents. It is a great and important work, long called for and wanted, and at last ably prepared for the Public.—*North Am. Review.*

This celebrated performance is said to have been written, printed, and liberally distributed both in Great Britain and America, at the instance and expense of the Government, but whether this be true or not, the work itself we are afraid, will answer no other purpose than to exasperate the People of Great Britain, against their brethren of America, and by inflaming misrepresentations and invectives, aggravate the evils of our present civil discord.—*Monthly Review.*
